

# RailEngineer

by rail engineers for rail engineers

JUNE 2017 - ISSUE 152

## *Future* **proofed!**

Settle-Carlisle reopens  
13 months after a major  
landslip at Eden Brows.

### **HACKING THE RAILWAY**

Britain's railways weren't affected by the recent worldwide cyber attack, although Germany wasn't so lucky.

### **CLEVER CANTILEVER**

Alstom's new catenary design for electrification projects is lightweight, simple to erect, and CLever.

### **ROLVENDEN REVOLUTION**

An interesting new level crossing design is first installed where the Kent and East Sussex Railway crosses the A28.

Haigh Resourcing delivers rail resourcing solutions throughout the UK, from labour supply, engineering personnel and safety-critical staff, through to pricing and managing package civil engineering works.

### Why Haigh Resourcing?

Our high-profile, experienced management team fully understands market requirements, provides a hands-on approach to each and every client requirement and always ensures that each colleague is handpicked for their expertise and track record of safety and delivery.

### What we do

#### Labour

Our reputation for the supply of multi-disciplinary labour in the rail industry is second to none. We supply highly qualified permanent, temporary and contract personnel including Safety Critical Staff, Skilled Labour, Tradespersons, Machine Operators and Project Engineering disciplines.

#### Civils

We offer a fully managed, fixed-price delivery service, providing a turnkey labour, plant and materials solution for our clients' projects. Services include: earthworks, steel reinforcement, bridge replacement and repairs, troughing works, confined-space works, drilling and grouting, core drilling, reinforced concrete construction, formwork, brickwork and masonry and UTX and URX construction.

#### De-vegetation

We have a highly qualified team of skilled and qualified personnel and are able to undertake de-veg works on behalf of clients. Our de-veg teams are available 24/7 for both planned works and emergency call-outs. Typical projects include: enabling works, vegetation clearance, leaf-fall clearance, landscaping, arboriculture, vegetation surveys and ecological mitigation.

#### Full UK Coverage

Operating from locations in the Midlands, North West and North East of England, we are able to effectively cover most of the UK.
